# Refugee Health Round-up

*epi*TRENDS

A Monthly Bulletin on Epidemiology and Public Health Practice in Washington

## June Volume: Salmonella Infections and Kratom

Salmonellosis is one of the more common types of bacterial diarrheal infections in this country. A wide variety of exposures have caused salmonellosis outbreaks. A 2017-2018 multistate outbreak of salmonellosis involved a novel source of exposure...[Read more »](#)

## Webinar: Rethinking TB testing and treatment in Pediatrics

Qiagen is hosting a webinar on **Wednesday, June 20, 2018 at 12:00 pm**. Please join this live webinar event to learn more about the new American Academy of Pediatrics guidelines. Participants will learn more about the rationale behind the new pediatric IGRA recommendations and LTBI treatment regimens....[Read more »](#)

Please send a request to [Refugee Health Program](#) if you want to receive the Weekly Round-up or to include events/news.

### Refugee Center Online: Resources Database

[In Your City](#), from Refugee Center Online (RCO), is a database of resources, compiled specifically for newcomers, with information ranging from Healthcare and Resettlement Agency offices to free immigration services.
