# Refugee Health Round-up

## Annual Community Forum on Hepatitis B

Please join the Hepatitis B Coalition of Washington (HBCW) and International Community Health Services (ICHS) on **May 10, 2018** for an informative community forum on Hepatitis B in commemoration of May as a Viral Hepatitis B Awareness month. This year, the forum will feature two speakers- people with first hand experience with the disease who will be sharing their stories. **Please register [here](#).**

## Refugee Health Care in the U.S.

The webinar Series: Refugee Health Care in the U.S, presented by PolicyLab and Minnesota Department of Health's Refugee Health, had an informative discussion on how health systems, public health agencies and community organizations can ensure refugee children and families do not face disparities in health care due to the social, economic and geographic factors outside of their control. To access the archived webinar video, **please click [here](#).**

Please send a request to [Refugee Health Program](#) if you want to receive the Weekly Round-up or to include events/news.

## Ethiopian Health Fair

A one day health fair sponsored by the Ethiopian Community in Seattle. Services include Mammograms, dental health, HIV testing, diabetes testing and other health services. A family friendly and free event. The fair will be held on **April 28, 2018 from 10:00 am to 04:00 pm** at the [Ethiopian Community Center](#):
