MEAT / PROTEIN-RICH FOODS

- Choose lean cuts of goat and beef. Trim visible fat from meat before cooking.
- Remove skin from chicken and fish before cooking.
- Cook or stew meats in their own juices rather than adding oil or fat.
- Cooked red beans and lentils are a good source of low fat protein instead of meat.

VEGETABLES

- Increase your intake of fresh and/or frozen vegetables as good sources of vitamins, minerals, and fiber.
- Include dark-green and deep-yellow vegetables in meals several times each week.
- Add variety to salads by adding chopped vegetables, and dark leafy greens.

FRUIT

- Choose whole fruit more often than juices. Whole fruits have fiber and less concentrated sugar.
- Choose canned fruit and juice without added sugar, sweeteners, or syrup.
- Choose fruit rich in Vitamin C such as strawberries, melons, mangos, oranges, and other citrus.

GRAINS, BEANS, STARCHY VEGETABLES
