

ENGLISH:

Hello. My name is Mustafa. I have worked at Harborview for 20 years in various jobs, and now as an interpreter. I am here to take the second dose of 'Covid-19'. Some people are afraid to get vaccinated because of their religion and some do not trust science. At the moment millions have taken over which gives us confidence. So I hope more people will take it. I would like to share with the public that this Vaccine is safe.

When I got my first shot I did not have any side effects. Only the muscle in my arm that was injected hurt me one day and that is what every shot has to do with it. I hope that my today dose is not going to cause any problem to me InshaAllah.

Some people say they do have some symptoms such as headache, arm pain, fatigue, fever, or muscle a few days after vaccination. Most of these symptoms are seen after the second shot. These are all signs that the immune system is building defenses. This is normal and can also be seen after other commonly used vaccines.

Most of the Islamic scholars confirmed Covid-19 Vaccine does not break fast during Ramadan including Grand Mufti of Masjid al-Haram Sheikh Abdulaziz al-Sheikh and The imam of the Masjid al-Haram Sheikh Abdul Rahmana Al-Sudais.

Thank you,

SOMALI:

Waad salaaman tihiin. Magacaygu waa Mustafa. Waxaan ka shaqeynayey Harborview 20 sanadood oo aan ka soo qabtay shaqooyin kale duwan, haddana aan ka ahay mutarjum. Waxaan halkan u joogaa inaan qaato tallaalkii labaad ee 'Covid-19'. Dadka qaarkiis way ka baqayaan inay qaataan tallaalka diintooda darteed qaarna kuma kalsoona sayniska. Waqtigan xaadirka malaayiin qof baa qaatay taas oo ina siinaysa kalsooni waxay ku noqdeena ma jirto. Markaa waxaan rajaynayaa in dad badani qaadan doonaan. Waxaan jecelahay inaad dadweynaha la wadaago in Tallaalkani yahay mid aamin ah oo safe ah.

Tallaalkii kowaad markaan qaatay wax dhib ah ama fal-celis ah (side effect) kuma arag. Keliya muruqa gacanta la iga duray baa i damqaneyey hal maalin taasna talaal kasta oo la qaato waa leeyahay. Waxaan rajaynaaya kanna in aanan wax dhib ah ku arkin InshaAllaah.

Dadka qaarkiis waxaa sheegeen inay yeeshenn calaamadahan qaarkood sida madax xanuun, cudud xanuun, daal, qandho, ama murqo xanuun dhawr maalmood ka dib tallaalka. Calaamadahaan intooda abadan waxaa la arkaa tallaalka labaad ka dib ka dib. Kuwani dhammaantood waa calaamado muujinaya in habka difaaca jirka uu dhisayo difaac. Tani waa wax iska caadi ah oo sidoo kale waa la arki karaa kadib talaalada kale ee sida caadiga ah loo isticmaalo.

Culimada Islaamka intooda badani waxay sheegeen in aan tallaalka Covid-19 aanu jebin soonta oo ay ka mid yihiin Muftiga Masjidka Al-xaramka Shiikh Cabdulcasiis Al-shiikh iyo Imaamka Masjidka Al-xaramka Shiikh Cabdiraxman Al-Sudays

Waad mahadsan tihiin,
